

使用者請假系統

介紹

開發一個完整的使用者請假系統。

Github : <https://github.com/TinsleyWu/Springboot-User-System>

方法

此系統由Java撰寫而成，主要框架為SpringBoot + Spring MVC + JPA，而通常前端與後端會同時開發，故後端若要測試Code，可能前端的畫面還沒出來，此時可用Postman測試Request和Response。

A decorative grid pattern made of thin, dark lines is positioned in the top-left corner of the image. Another similar grid pattern is on the right side, and a third one is on the left side, all partially visible.A small, stylized icon consisting of five four-pointed stars. One star is dark grey, one is orange, and three are light green, arranged in a cluster.

Thanks for watching !
